SUMMARY:

Adaptive engineer launching career in software development. Team player, creative, logical.

- C# tech stack: ASP.Net MVC Core, MySQL, Dapper, Azure, Visual Studio, Git
- Python tech stack: Flask, SQLite, SQLAlchemy, Heroku, Visual Studio, Git
- JavaScript tech stack: HTML, CSS, Electron, JQuery, Bootstrap, Visual Studio Code, Git

PROJECTS:

View all on Portfolio Website: <https://tim-honchel.github.io/>

Predictive Keyboard | JavaScript on Electron

Alternative for devices that lack a built-in keyboard (TVs, game consoles). Calculates probability of next typed character and arranges a scrollable keyboard that minimizes movement and time.

Student Rewards Store | C# on ASP.Net MVC Core with MySQL, Dapper, Azure

Educational programs create their own online store where students log in, see their account balance and history, and purchase rewards. Administrators manage student accounts, upload deposits, add rewards and inventory, and receive reports to fulfill student orders.

EDUCATION:

TrueCoders | Full-Stack Software Engineering | Nov 2021 – In Progress

Earned certificate for 500+ hours of intensive training in technologies such as C#, SQL, ORMs, JavaScript, HTML, CSS, frameworks, libraries, REST APIs, JSON, PaaS, Git, and repositories.

Asbury University | Business Management | Aug 2008 – May 2011

Earned Bachelor of Arts degree, graduating in 3 years with 3.96 GPA. Financial analyst intern.

EXPERIENCE:

Executive Director | Kids in New Directions | Sep 2019 – Oct 2021

- Promoted to Executive Director in Nov 2020 after originally serving as Program Coordinator
- Navigated COVID to provide ongoing educational programming to K-8 students in Dayton
- Increased student attendance by 12%, cash reserves tenfold, and cut staff turnover by 75%

Employment Specialist | Catholic Social Services | Sep 2018 – Aug 2019

- Provided employment training and placement services to newly arrived refugees in Dayton
- Placed 95% of clients in full-time jobs at companies who often hadn't hired refugees before

Business Planning Consultant | Honchel Consulting LLC | Dec 2012 – Aug 2018

- Provided ongoing or one-time services to non-profit directors and small business owners
- Included market research, financial analysis, project management, and recruitment

CERTIFICATES:

- Build Python Web Apps with Flask. Codecademy. Certificate of Completion.
- Learn Data Structures and Algorithms with Python. Codecademy. In Progress.
